REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims is the inclusion of the feature of depositing using physical vapor deposition, a seed layer of aluminum on a metal liner layer formed in an aperture, exposing the seed layer of aluminum to a reactive gas; and depositing aluminum using sputtering on the seed layer to fill the aperture, creating a via which is not anticipated nor rendered obvious over the prior art of record. The prior art of record discloses a method of filling vias that include forming a metal liner layer, depositing a seed layer of aluminum and depositing aluminum to fill the aperture, but does not teach the combination of depositing the seed layer of aluminum by physical vapor deposition, exposing the seed layer of aluminum to a reactive gas, and depositing aluminum by sputtering on the seed layer to fill the aperture.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
